

# Data Protection Policy

## **Data Protection Policy Birkby Infant and Nursery School**

### **Introduction**

Birkby Infant & Nursery School aims to ensure that all personal data collected about staff, pupils, parents, governors, visitors and other individuals is collected, stored and processed in accordance with the General Data Protection Regulation (GDPR) and the provisions of the Data Protection Act 2018 (DPA 2018)

This policy applies to all personal data, regardless of whether it is in paper or electronic format.

This policy meets the requirements of the GDPR and the expected provisions of the DPA 2018. It is based on guidance published by the Information Commissioner's Office (ICO).

It also reflects the ICO's code of practice for the use of surveillance cameras and personal information.

In addition, this policy complies with regulation 5 of the Education (Pupil Information) (England) Regulations 2005, which gives parents the right of access to their child's educational record.

Birkby Infant & Nursery School collects and uses personal information about staff, students, parents or carers and other individuals who come into contact with the School. This information is gathered in order to enable it to provide education and other associated functions. In addition, there may be a legal requirement to collect and use information to ensure that the School complies with its statutory obligations.

Birkby Infant & Nursery School is a data controller and must therefore comply with the Data Protection Principles in the processing of personal data, including the way in which the data is obtained, stored, used, disclosed and destroyed.

Details of the School's purpose for holding and processing data can be viewed on the data protection register: <https://ico.org.uk/esdwebpages/search>

The Schools registration number is Z6539481. This registration is renewed annually.

**Responsibility:** It is the responsibility of the Governors to ensure procedures are in place to ensure that the school complies with Data Protection legislation, e.g. including, but not limited to, the General Data Protection Regulation (GDPR) and The Data Protection Act.

## **1. Introduction**

In order to operate efficiently Birkby Infant and Nursery School has to collect and use information about people with whom it works and the pupils it provides an education to. These may include members of the public, current, past and prospective employees, clients and customers, and suppliers. In addition it may be required by law to collect and use information in order to comply with the requirements of central government.

The School is committed to ensuring personal data is properly managed and that it ensures compliance with current data protection legislation. The School will make every effort to meet its obligations under the legislation and will regularly review procedures to ensure that it is doing so.

## **2. Scope**

This policy applies to all employees, governors, contractors, agents and representatives, volunteers and temporary staff working for or on behalf of the School.

This policy applies to all personal data created or held by the School in whatever format (e.g. paper, electronic, email, microfiche, film) and however it is stored, (for example, ICT system/database, shared drive filing structure, workbooks, email, filing cabinet, shelving and personal filing drawers).

Personal data is information about living, identifiable individuals, or an identifier or identifiers that can be used to identify a living individual. It covers both facts and opinions about the individual. Such data can be part of a computer record or manual record.

Current data protection legislation does not apply to access to information about deceased individuals. However, the duty of confidentiality may continue after death.

## **3. Responsibilities**

Overall responsibility for ensuring that the School meets the statutory requirements of any data protection legislation lies with the Governors and the Chair of Governors has overall responsibility for information management issues. They have delegated the day-to-day responsibility of implementation to the Head Teacher/Data Protection Officer (DPO).

The Head Teacher/DPO is responsible for ensuring compliance with data protection legislation and this policy within the day-to-day activities of the School. The Head Teacher/DPO is responsible for ensuring that appropriate training is provided for all staff.

All contractors who hold or collect personal data on behalf of the School by way of written contract are responsible for their own compliance with data protection legislation and must ensure that personal information is kept and processed in line with data protection legislation and only upon instruction from the school, via a contract.

## **4. The Requirements**

Data protection legislation stipulates that anyone processing personal data must comply with principles of good practice; these principles are legally enforceable. The 6 principles require that personal data:

1. Shall be processed fairly and lawfully and transparently;

2. Shall be obtained only for one or more specified and lawful purposes and shall not be further processed in any manner incompatible with that purpose or those purposes;
3. Shall be adequate, relevant and not excessive in relation to the purpose or purposes for which it is processed;
4. Shall be accurate and where necessary, kept up to date;
5. Shall not be kept for longer than is necessary for that purpose or those purposes;
6. Shall be kept secure i.e. protected by an appropriate degree of security.

In addition the data shall be processed in accordance with the rights of data subjects. (See Section 16 below)

Personal data shall also not be transferred to a country unless that country or territory ensures an adequate level of data protection or another secure method of transfer is guaranteed.

## **5. Notification**

The Digital Economy Act 2017 requires every data controller who is processing personal data, to notify and renew their notification, on an annual basis. Failure to do so is a criminal offence. The Information Commissioner maintains a public register of data controllers, in which the School must be registered.

The School will review the Data Protection Register (<https://ico.org.uk/esdwebpages/search>) annually, prior to renewing its notification to the Information Commissioner.

## **6. Privacy Notices**

Whenever information is collected about individuals they must be made aware of the following at that initial point of collection:

- The identity of the data controller, e.g. the School;
- Contact details of the Data Protection Officer;
- The purpose that the information is being collected for;
- Any other purposes that it may be used for;
- What the lawful basis is for processing the data;
- Who the information will or may be shared with;
- If the data is transferred outside of the EU, and if yes, how is it kept secure;
- How long the data will be kept for; and
- How data subjects can exercise their rights.

The School will review its Privacy Notice annually and alert pupils and parents to any updates.

## **7. Conditions for Processing**

Processing of personal information may only be carried out where one of the conditions of Article 6 of the GDPR has been satisfied.

Processing of special category (sensitive) personal data may only be carried out if a condition in Article 9 of the GDPR is met as well as one in Article 6.

## **8. Data Protection Officer**

The Schools Data Protection Officer in line with the requirements of the GDPR is Diana Wilson – Head Teacher.

## **9. Data Protection Impact Assessments**

The School shall undertake high risk Data Protection Impact Assessments in line with the requirements of the GDPR and as per the Information Commissioner's Office (ICO) guidance.

This procedure is based on guidance on personal data breaches produced by the ICO.

- 1.** On finding or causing a breach, or potential breach, the staff member or data processor must immediately notify the Head Teacher/Business Manager.
- 2.** The staff member or data processor will be asked to complete the school's data breach form.
- 3.** The Head Teacher/Business Manager will assess the nature of the breach and make an initial entry in the school's breach register.
- 4.** The Head Teacher/Business Manager will inform the DPO of the potential breach
- 5.** On receiving the breach report, the DPO will investigate the report, and determine whether a breach has occurred. To decide, the DPO will consider whether personal data has been accidentally or unlawfully:
  - a. Lost
  - b. Stolen
  - c. Destroyed
  - d. Altered
  - e. Disclosed or made available where it should not have been
  - f. Made available to unauthorised people
- 6.** The DPO will keep the headteacher informed throughout the process

- 7.** The DPO will make all reasonable efforts to contain and minimise the impact of the breach, assisted by relevant staff members or data processors where necessary.
- 8.** The DPO will assess the potential consequences, based on how serious they are, and how likely they are to happen
- 9.** The DPO will work out whether the breach must be reported to the ICO. This must be judged on a case by case basis. To decide, the DPO will consider whether the breach is likely to negatively affect people's rights and freedoms, and cause them any physical, material or non-material damage (e.g. emotional distress), including through:
  - a. Loss of control over their data
  - b. Discrimination
  - c. Identify theft or fraud
  - d. Financial loss
  - e. Unauthorised reversal of pseudonymisation (for example, key-coding)
  - f. Damage to reputation
  - g. Loss of confidentiality
  - h. Any other significant economic or social disadvantage to the individual(s) concerned
  - i. If it's likely that there will be a risk to people's rights and freedoms, the DPO must notify the ICO within 72 hours of the breach being reported.
- 10.** The DPO will document the decision (either way), in case it is challenged at a later date by the ICO or an individual affected by the breach. Documented decisions are recorded within the school breach register.
- 11.** Where the ICO must be notified, the DPO will do this via the 'report a breach' page of the ICO website within 72 hours. As required, the DPO will set out:
  - a. A description of the nature of the personal data breach including, where possible:
    - i. The categories and approximate number of individuals concerned
    - ii. The categories and approximate number of personal data records concerned
  - b. The name and contact details of the DPO
  - c. A description of the likely consequences of the personal data breach
  - d. A description of the measures that have been, or will be taken, to deal with the breach and mitigate any possible adverse effects on the individual(s) concerned.
- 12.** If all the above details are not yet known, the DPO will report as much as they can within 72 hours. The report will explain that there is a delay, the reasons why, and when the DPO expects to have further information. The DPO will submit the remaining information as soon as possible

**13.** The DPO will also assess the risk to individuals, again based on the severity and likelihood of potential or actual impact. If the risk is high, the DPO will promptly inform, in writing, all individuals whose personal data has been breached. This notification will set out: a. The name and contact details of the DPO b. A description of the likely consequences of the personal data breach c. A description of the measures that have been, or will be, taken to deal with the data breach and mitigate any possible adverse effects on the individual(s) concerned

**14.** The DPO will document each breach, irrespective of whether it is reported to the ICO. For each breach, this record will include the: a. Facts and cause b. Effects c. Action taken to contain it and ensure it does not happen again (such as establishing more robust processes or providing further training for individuals)

**15.** Depending on the severity of the breach, the DPO and headteacher will either discuss the outcome over the phone or meet to review what happened and how it can be stopped from happening again. This will happen as soon as reasonably possible.

## **10. Data Breaches**

All employees, governors, contractors, agents and representatives, volunteers and temporary staff shall report a security incident or data breach immediately to senior management and the School's Data Protection Officer.

The School shall report any personal data breach to the ICO in line with the requirements of the GDPR.

## **11. Contracts**

The School shall ensure that a legally binding contract is in place with all of its data processors in line with the requirements of the GDPR.

## **12. Consent**

Where the School processes data with consent (for example, to publish photographs of children, to send direct marketing emails about school uniform for sale) it will ensure that the consent is freely given, specific, informed and unambiguous, and the consent is recorded.

## **13. Information Society Services**

Where the School offers Information Society Services (online services with a commercial element) targeted at children, it will take reasonable steps to seek the consent of the child's parent or guardian if the child is under 13 years of age.

## **14. Direct Marketing**

Where the School sends any direct marketing (the promotion of aims and ideals as well as selling goods and services) via electronic communications, e.g. email, SMS text, fax or recorded telephone messages, it will only do so if the recipient has given explicit consent to receive them, e.g. has ticked a box to 'opt in'.

## **15. Provision of Data**

It is a criminal offence to knowingly or recklessly obtain or disclose information about an individual without legitimate cause. Relevant, confidential data should only be given to:

- Other members of staff on a need to know basis;
- Relevant Parents/Guardians;
- Other authorities if it is necessary in the public interest, e.g. prevention of crime, safeguarding;
- Other authorities, such as the Local Authority and schools to which a pupil may move, where there are legitimate requirements (DfE leaflet 0015/2000 entitled "Pupil Records and Reports" issued in March 2000 covers Data Protection issues and how and what information should be transferred to other schools. DfES/0268/2002 provides further information).

The School should not disclose anything on a pupil's record which would be likely to cause serious harm to their physical or mental health or that of anyone else. Therefore, those who create such records should ensure that such information is separated from other records.

Where there is doubt, or statutory requirements conflict, legal advice should be obtained. Where there are safeguarding concerns, the matter should be referred to the School's Designated Safeguarding Lead (DSL).

When giving information to an individual, particularly by telephone, it is most important that the individual's identity is verified. If in doubt, questions should be asked of the individual, to which only he/she is likely to know the answers. Information should not be provided to other parties, even if related. For example, in the case of divorced parents it is important that information regarding one party is not given to the other party to which he/she is not entitled. Care must always be taken when there is any doubt about parental responsibility.

## **16. The Individual's Rights**

Any person whose details are held by the School is entitled to ask for a copy of information held about them (or child for which they are responsible). They are entitled to see if the data held are accurate, and who it is shared with.

When a request is received it must be dealt with promptly; a response must be provided as soon as possible and within one month and in some instances, for education records, 15 school days. All staff must recognise and log such a request with the Data Protection Officer.

The School cannot charge for responding to a subject access request unless the request is repeated manifestly unfounded or excessive. The School can charge up to £50 (on a sliding scale for photocopying charges) for access to a pupil's Educational Record.

When providing the information the School must also provide a description of why the information is processed, details of anyone it may be disclosed to and the source of the data.

Staff of the School must also recognise and log the following requests with the Data Protection Officer, and all must be answered within one month:

- Right to Rectification
- Right to Erasure
- Right to Restriction
- Right to Portability
- Right to Object
- Right to Prevent Automated Processing
- Right to Complain

## **17. Provision of Data to Children**

In relation to the capacity of a child to make a subject access request, guidance provided by the ICO has been that by the age of 12 a child can be expected to have sufficient maturity to understand the nature of the request. A child may of course reach sufficient maturity earlier; each child should be judged on a case by case basis.

If the child does not understand the nature of the request, someone with parental responsibility for the child, or a guardian, is entitled to make the request on behalf of the child and receive a response.

Pupils who submit requests to access their educational records should be allowed to do so unless it is obvious that they do not understand what they are asking for.

## **18. Parents' Rights**

An adult with parental responsibility can access the information about their child, as long as the child is not considered to be sufficiently mature. They must be able to prove their parental responsibility and the School is entitled to request relevant documentation to evidence this as well as the identity of the requestor and child. The School has the right to ask the Child if they object to release of information to the Parent if the Child is deemed mature enough to make such a decision.

In addition, parents have their own independent right under The Education (Pupil Information) (England) Regulations 2000 of access to the official education records of their children. Students do not have a right to prevent their parents from obtaining a copy of their school records (as defined in the Education Act).

## **19. Information Security**

All members of staff should be constantly aware of the possibility of personal data being seen by unauthorised personnel. For example, possibilities may arise when computer screens are visible to the general public; files may be seen by the cleaners if left on desks overnight (all papers must be locked in cabinets when not in use).

The use of computer passwords is a requirement of the school to avoid unauthorised access. All removable devices, e.g. laptops, USB sticks, personal mobile phones and digital cameras must not be used to store School data unless they comply with a School Bring Your Own Device (BYOD) policy, and should be encrypted and password protected wherever possible.

All members of staff should take care when transporting paper files between sites. No personal data is ever to be left unattended off site, e.g. in a car overnight, on view to family members when working at home.

All members of staff should take care when emailing personal data and always check the email address is correct and the right attachment has been attached. When copying to several people externally, all members of staff must always use the BC field and not the CC field nor create a group.

## **20. Maintenance of Up to Date Data**

Out of date information should be discarded if no longer relevant. Information should only be kept as long as needed, for legal or business purposes. In reality most relevant information should be kept for the period during which the person is associated with the School plus an additional period which the School has determined. Under GDPR the School must produce a Retention and Disposal Policy to clarify this.

## **21. Inaccurate Data**

If an individual complains that the personal data held about them is wrong, incomplete or inaccurate, the position should be investigated thoroughly including checking with the source of the information. This must be answered within one month. In the meantime a caution should be marked on the person's file that there is a question mark over the accuracy. An individual is entitled to apply to the court for a correcting

order and it is obviously preferable to avoid legal proceedings by working with the person to correct the data or allay their concerns.

## **22. Recording of Data**

Records should be kept in such a way that the individual concerned can inspect them. It should also be borne in mind that at some time in the future the data may be inspected by the courts or some legal official. It should therefore be correct, unbiased, unambiguous, factual and clearly decipherable/readable. Where information is obtained from an outside source, details of the source and date obtained should be recorded.

Any person whose details, or child's details, are to be included on the School's website will be required to give written consent unless it is a legal requirement (e.g. Governors' details). At the time the information is included all such individuals will be properly informed about the consequences of their data being disseminated worldwide.

## **23. Photographs**

Whether or not a photograph comes under the data protection legislation is a matter of interpretation and quality of the photograph. However, the School takes the matter extremely seriously and seeks to obtain parents' permission for the use of photographs outside the School and, in particular, to record their wishes if they do not want photographs to be taken of their children.

## **24. Breach of the Policy**

Non-compliance with the requirements of data protection legislation by the members of staff could lead to serious action being taken by third parties against the School. Non-compliance by a member of staff is therefore considered a disciplinary matter which, depending on the circumstances, could lead to dismissal. It should be noted that an individual can commit a criminal offence under the law, for example, by obtaining and/or disclosing personal data for his/her own purposes without the consent of the data controller.

## **25. Further Information**

Further advice and information about data protection legislation, including full details of exemptions, is available from the ICO website at [www.ico.org.uk](http://www.ico.org.uk), or from Kirklees Council's Information Governance Team via [information.governance@kirklees.gov.uk](mailto:information.governance@kirklees.gov.uk)

## **26. Review of the Policy**

This policy is to be reviewed annually – September 2022

## 27. Glossary

Data Controller	A data controller is the individual or the legal person who controls and is responsible for the keeping and use of personal information on computer or in structured manual files.
Data Subject	The individual who the data or information is about
Educational record	The educational record is confined to information that comes from a teacher or other employee of a local authority or school, the pupil or their parents. Communications about a particular child from head teachers and teachers at a school and other employees at an education authority will therefore form part of that child's official educational record, as will correspondence from an educational psychologist engaged by the governing body under a contract of services. It may also include information from the child and their parents, such as information about the health of the child. Information kept by a teacher solely for their own use does not form part of the official educational record.
Information Commissioner	The independent regulator who has responsibility to see that the data protection legislation is complied with. They can give advice on data protection issues and can enforce measures against individuals or organisations who do not comply with the law.
Notified Purposes	The purposes for which the school is entitled to process that data under its notification with the Office of the Information Commissioner.
Personal Data	Defined as 'data which relates to a living individual who can be identified from that data, or from that data and other information which is in the possession of, or is likely to come into the possession of, the data controller' or an identifier (the school is a data controller), and includes any expression of opinion about the individual and any indication of the intentions of the data controller or any other in respect of the individual.
Processing	Covers a broad range of activities such that virtually any use of personal information or data will amount to processing. Just holding or storing

	the data constitutes processing.
Processed fairly and lawfully	Data must be processed in accordance with the provisions of data protection legislation. These include the data protection principles, the rights of the individual and notification.
Special Category (sensitive) Data	Information about racial or ethnic origin, sexual life, religious beliefs (or similar), physical or mental health/condition, membership of a trade union, political opinions or beliefs, or biometric or genetic data.
Subject Access Request	An individual's request for personal data under the General Data Protection Regulation.
